

Clearly, our lives are shaped by various experiences we have encountered. Good and bad memories play a significant role in altering the outlook we have towards our lives. I **Parneet Kaur** in this article have discussed about some of my academic goals. I believe that hard work and determination are the primary elements of success. I leaned to put extra effort in whatever i do, I believe that one should not give up under all circumstances. Besides, my father would also teach us to manage our lives. He gave me relevant life examples of making the right choices. I did my Matriculation in the year 2020 from Central Board of Secondary Education and my Senior Secondary Education in the year 2022 from the same Board. I also appeared for IELTS exam and scored 7 bands overall. Now my next step is to go **United States of America** to pursue **Bachelor of Business Administration** from **Lincoln University**.

I chose this destination because U.S. universities welcome international students for pursuing higher education and offer a support system within the university which enables them to adjust their life comfortably in the U.S. It also offers various ethnic, socioeconomic and educational back-ground. Besides, academic study and experience from a U.S. university has a very positive reputation in the international job market. The experience builds critical thinking skills, develops self-confidence and cross-cultural skills and all of these attributes are highly valued by employers worldwide. The USA is a multiracial society that is still absorbing new immigrants which makes it a very dynamic and exciting place to experience. In American Universities students are encouraged and expected to contribute to the discussions and also known to have high academic standards. Therefore, considering all these reasons I chose this country.

I searched about various universities but selected **Lincoln University** as it is enriched by diverse population and offers an inviting community. This university provides professional

education, grounded in the interaction of knowledge. It prepares students with practical and theoretical elements required in the job market today. Programs at Lewis are designed to be convenient, flexible and affordable. The academic programs at university have a truly global focus. Lincoln University ensures a variety of perspectives make the classrooms informative and dynamic and I will be prepared for active participation and career advancement.

I have decided to study **Bachelor of Business Administration**. This course will offer me a broad base of knowledge in business and management. I will learn the basics across all specialties and develop skills that can be applied to many practice areas in almost any industry. This BBA program focuses on strengthening leadership, creativity, communication, and critical thinking skills, which are imperative to success in any field. The aim of **BBA** is to train students and professionals in managing the general operations of any company. I can use this BBA degree to boost my credentials and either strives for promotion in my future job or follow a new career path. During this course I will study Principles of Management, Human Resources Management, Entrepreneurship, and Quantitative methods for Business and FM, etc.

Regards

Parneet Kaur
