The USA is one of the best nations to consider when planning studying abroad. The education system in the United States is crafted and designed in a manner that it is the best education system in the world. Though none of the education systems is perfect and the USA is no exception to this rule yet, it is one of the superior systems. With a variety of benefits to offer, the USA is my choice since it provides quality education, a unique curriculum, and a multicultural environment. The education system is flexible and provides abundant opportunities. The lively and vibrant campuses, cultural diversity and hospitality offered the international students are impeccable and add up to make the USA a dream study destination.

The USA has a good number of universities to choose from. After an in-depth research I have selected my dream college **New Haven University, USA**.

The university offers a proven, purposeful education, which, through professionally focused courses of study, equips students with the critical skills, knowledge, and experience essential for meaningful careers and productive life. The culture of the varsity is a comprehensive, value centred learning experience emphasizing on faith, leadership, inclusiveness and personal development. I have chosen to pursue **MBA** in **Business Analytics**.

This course will help me outshine and gain an upper hand in my field of expertise. I will have a variety of career opportunities open for me in my home country. With a degree from the New Haven University, USA will be impactful and help me create a better mark than others in my chosen field. With cut throat competition and increasing demand for good business

development skills this degree will be a valuable asset for me. After gaining this degree I intend on coming back and working with a good and reputed MNC such as PepsiCo, Google, and Nestle etc. in my home country. I am a firm believer that I will be able to excel and succeed in my career by making my aforementioned choices.

Regards,

Anjana Sharma
