

As we all know that good leaders are not born they are made. If we have the desire and willpower, we can become an effective leader. I **Manpreet Singh**, want to be at a manager post and I know that I have that endurance, determination and enthusiasm required to succeed in this fascinating and rewarding career. I want to describe my educational attainment as well, I did my Matriculation in the year 2016 from Board of School Education Haryana and my Senior Secondary Education in the year 2018 from the same Board. I have also done Bachelor of Science from Maharishi Markandeshwar (Deemed to be University), in the year 2021. Now, my next step in terms of career development is to go **United States of America** to pursue a **MBA** from **Lincoln University**.

I searched about various universities but selected Lincoln University. Each program within this university is designed to ensure that all of the acquired knowledge and skills are valuable to its graduates, providing a practical and solid foundation for the student's future. They have made sure that every part of their students' education serves a purpose and bring them closer to accomplishing their professional goals. Their excellent and rigorous curriculum, outstanding faculty and convenient facilities provide all the necessary components to ensure my path to a successful future. This university is one of the youngest and most dynamic institutions in California. This university will provide me a professional education and I will be prepared for active participation, career advancement, and leadership in the global society. Lincoln University intentionally embraces diversity and equal opportunity.

I chose this destination because U.S. universities welcome international students for pursuing higher education in USA and offer a support system within the university which enables them to adjust their life comfortably in the U.S. Academic study and experience from a U.S. university has a very positive reputation in

the international job market. The experience builds critical thinking skills, develops self-confidence and cross-cultural skills and all of these attributes are highly valued by employers worldwide. American institutions are also known to have high academic standards, follow rigorous practices to maintain quality and are well-supported to be able to offer excellent education to its students. The U.S. higher education system has lots to offer me. The program structures in USA lays equal emphasis on building a strong theoretical base along with importance on practical, employment-related skills. Therefore, considering all these reasons I chose this country.

MBA is a postgraduate program which will equip me with the sufficient knowledge and training for the all needed basic knowledge of International Business. It is a degree designed to develop the resources and capability of managers in the global economy. However, adding an MBA degree to my profile after completing Hotel Management will boost my profile and open new avenues of growth. I will be able to increase my management, critical thinking and analytical skills. The degree will have a direct positive impact on my salary and growth.

After completing the degree, I have already planned that what I have to do with this degree. I will first gain some experience in my preferred field and after that I will open my own Hotel in my home country. I am confident that this field of study will fulfill all these things, because success in this field means succeeding in achieving my dreams.

**Regards**

**Manpreet Singh**
