

With endless advances in modern accounting world there is a great need for professionals with a critical thinking, technical and analytical skills to improve the business sector.

I am **Chanpreet Kaur** resident of **Amritsar, Punjab, India**. I completed my **Matriculation** from **Punjab School Education Board** in **2009**. Further I pursued my **Senior Secondary education** from the same board in **2011**. I did my graduation from **Arni University** where I pursued **B.CA.** in **2016**. I have always had a keen interest in business and administration. Therefore, I have decided to take a step further and study **MS in Cyber security**.

USA is one of the best nations to consider when planning studying abroad. The education system in United States is crafted and designed in a manner that it is the best education system in world. Though none of the education system is perfect and the USA is no exception to this rule yet, it is one of the superior systems. With a variety of benefits to offer USA is my choice since it provides quality education, unique curriculum, and multicultural environment. The education system is flexible and provides abundant opportunities. The lively and vibrant campuses, cultural diversity and hospitality offered the international students are impeccable and add up to make USA a dream study destination.

USA has a good number of universities to choose from. After an in-depth research I have selected my dream college **New Haven University, USA**. With a top-notch faculty and infrastructure it is one of the best universities in the states.

The university offers a proven, purposeful education, which, through professionally focused courses of study, equips students with the critical skills, knowledge, and experience essential for meaningful careers and productive life. The culture of the varsity is comprehensive, value centered learning experience emphasizing on faith, leadership, inclusiveness and personal development. I have chosen to pursue **MS in Cyber security**.

Due to high internet penetration, cyber security is one of the biggest needs of the world as cyber security threats are very dangerous to the country's security. This course will help me outshine and gain an upper hand in my field of expertise. I will have a variety of career opportunities open for me in my home country. After my Master's there is a plethora of career options to choose from. However, I am keen on becoming an ethical hacker. With a degree from the New Haven University, USA will be impactful and help me create a better

mark than others in my chosen field. With cut throat competition and increasing demand for good business development skills this degree will be a valuable asset for me.

Yours Truly

Chanpreet Kaur

I am **Chanpreet Kaur** resident of **Amritsar, Punjab, India**. I completed my **Matriculation** from **Punjab School Education Board** in **2009**. Further I pursued my **Senior Secondary education** from the same board in **2011**. I did my graduation from **Arni University** where I pursued **B.CA**. In **2016**.

After an in-depth research I have selected my dream university **UCR University Extension**.

For more than 65 years, UCR University Extension has been rewarding and enriching students of all ages - from right here in Riverside to the far-flung reaches of the globe - through professional development, academic advancement, and personal achievement. Part of the esteemed University of California system, UCR University Extension offers a welcoming and diverse environment in which to jumpstart existing career paths or embark on new ones, to continue an adventure of lifelong learning, or discover the waiting portal to new scholastic journeys and goals. UCR University Extension, through its professional, international, educator, youth, and elder programs, transforms lives around the world with innovative programs and learner-centred curriculum taught by outstanding instructors. The faculty brings passion, real-world practical skills, and top-notch educational and industry credentials to each and every course. The course I wish to pursue is **PGD in Big Data Technology**.

USA is a beautiful and welcoming nation that offers the best education in the world. It offers top-notch education by the top educationists. USA is one of the best nations to consider when planning studying abroad. With a variety of benefits to offer USA is my choice since it provides quality education, unique curriculum, and multicultural environment. The education system is flexible and provides abundant opportunities. The lively and vibrant campuses, cultural diversity and hospitality offered the international students are impeccable and add up to make USA a dream study destination. USA has a good number of universities to choose from.

Big Data Technology can be defined as a Software-Utility that Analyse, Process and Extract the information from an extremely complex and large data sets which the Traditional Data Processing Software could never deal with. This technology is primarily designed to analyse process and extract information from a large data set and a huge set of extremely complex structures. I firmly believe that Big Data is the future of technology around the world and this course will introduce me to the core concepts of Big Data Technology Solutions along with hands-on practices in business process modelling, data analysis, and data modelling.

Regards

CHANPREET KAUR
