

“All students study to work but BBA students give work to those people.”

I am Inderjeet Singh a resident of Patiala, Punjab, India. I belong to a very humble background and I hold a keen interest in business administration concepts. I consider myself to be an academically good student.

I did my Matriculation in 2017 from Govt. Co-Ed. Senior Secondary School (N.T.C.) Rajpura Patiala and Senior Secondary in the year 2019 from the same school. The curriculum of study followed was Punjab School Education Board.

USA has been my dream destination and I have always wanted to study from the USA. USA is a prospect nation for me as it is amongst the top developed countries across the globe. USA is interestingly a wonder in itself. It is the only nation that has Earth's all 5 climate zones and is 3 most visited international tourist attraction. Though all the states in USA speak for their own beauty yet Vermont also known as The Green Mountain State is a majestic natural beauty with some picturesque sceneries and wooden bridges. Vermont is known for its maple syrup production and lead talc production. According to a CNBC report Vermont is the best place to consider while planning living in the States. All factors ranging right from education quality to cost of living, healthcare and job opportunities together account for the ranking of Vermont.

Vermont is a host to many good universities and colleges. After careful consideration and research I decided to apply at the Castleton University. Located amidst the beautiful green scenic beauty of Vermont Castleton is ranked amongst the best universities of the USA. With only 2000 students and a campus spread across 165 acres Castleton is large enough to accommodate and provide ample opportunities to its students both inside and outside the classroom. At the same time it is small caring community for the students and faculty. The university offers some amazing courses and I have decided to pursue BBA.

BBA degree will help me develop and hone my skills it will provide me with better opportunities in my chosen coursework. I will get to learn about managerial skills, decision-making, and communication skills. I will be able to get a high paying job or start my own business. A degree from your prestigious university will help me gain an upper hand in my chosen field of career.

Regards

Inderjeet Singh

I, **Inderjeet Singh** honoured to have the opportunity to be applying for the **Bachelor of Business Administration and Management** offered by **Lincoln University**, US. I come from humble origins and my parent has been my inspiration. About my academics, I did Matriculation and my Senior Secondary from Punjab School Education Board in the year 2017 and 2019, respectively. Now to give an International touch to my studies and want to gain advance skills and technology, i want to pursue higher qualification from US.

Studying in US, I can have the opportunity to learn from experts and be surrounded by students and professionals from various cultural, ethnic, socioeconomic and educational backgrounds. Universities in United States offer internship programs as a way to kick-start a professional career. Universities in the US offer a wide range of campus activities beyond just academics. Undoubtedly, the U.S. offers a very high quality of education. The variety of skills and cross-cultural environment can make the learning experience in U.S. universities a rich and unique one. With such diverse academic and cultural backgrounds, international students are better prepared for working with absolute ease anywhere in the world. So, all these reasons attracted me to choose this country.

Number one reason I chose **Lincoln University** is, they are highly knowledgeable in their areas of study and promote excitement and interest in their students. . The main objective of this university is to assist its students in the development of their analytical capacity, to provide the necessary knowledge of the selected areas and provide a terminal degree to the motivated and capable students. This university is the one which has the necessary resources to achieve its stated purposes through appropriate educational programs. Besides, academic study and experience from a U.S. university has a very positive reputation in the international job market. The experience builds critical thinking skills, develops self-confidence and cross-cultural skills and all of these attributes are highly valued by employers worldwide. So studying in this university will provide my career a better hike as compared to other universities.

Bachelor of Business Administration and Management program is ever-increasing and is in the demand for highly skilled professionals. This degree will synthesize my knowledge, skills and experiences to develop independence in

professional practice. This program is designed for success. I will learn how to query and manipulate data to translate analytic insights into business values. Lincoln University's BA in Business Administration program will equip me with critical thinking skills, data analysis tools, and the art of effective communications to help in making decisions to influence modern commercial enterprise.

After this degree I want to get employed in one of the reputed MNC in India like Sony Ltd., Tata, and Reliance etc. at a managerial post and I am sure this degree and university will provide me a prominent position in my career.

Regards

Inderjeet Singh
