I completed Senior Secondary in the Covid affected year that is 2019 so other than remaining at home during lockdown I had no other option. After Covid, I decided to carry forward my interest in computers and completed two diplomas, one in computer programming and the other one in web development. The diploma cleared my basics, though I was known that it's necessary to be ~~more~~ advance in the sector. So I took a decision to apply for a bachelors in computer science in a US Univer. I prepared for Teks and initiated my application for the fall 2025 intake.
