

Personal Statement:

To The Admission team,

People know me by **Arvin Arya**.

I personally believe that “Luck favors those who are prepared, and do the needful towards their goal”. Following this rule in my life I have always been prepared to face any situation that knocks my door. I have been studious person throughout my academics, describing about which I did matriculation in year 2018 from Central Board of Secondary Education and senior education in year 2020 from same Board.

The emerging demands of the organizations hiring young talents, openly accept students passing from reputed colleges or studying abroad. To upgrade my academic attainments I decided on to pursue my further studies from **United States**. States is known for its quality of education and life it provides its residents. The country understands the struggles of international students, therefore conduct regular orientation programs, workshops and trainings to offer assistance. The country has diverse environment ensures that there is acceptance among all communities and there is no room for any discrimination. These were the reasons behind my choice of the United States of America as study destination than other countries.

The day I made up my mind to study abroad, I started my hunt for best options available for me that fits my criteria. After searching on the internet I, shortlisted **Pace University** as my future institution that I want to be part of and reflect its name onto my resume in future. Pace University provides to its undergraduates a powerful combination of knowledge in the professions, real-world experience, and a rigorous liberal arts curriculum, giving us the skills and habits of mind to realize their full potential. The university is ranked in the top 9% of the private US colleges that provide the best return on the tuition investment. It transforms the lives of its diverse students- academically, professionally, and socioeconomically. Through the convergence of immersive academics, experiential learning, and dedicated advising, pace empowers its students and positively impacts our communities.

As long as I can remember I have had love affair with leading the team and managing everything according to the time, to give an edge to my technical skills I decided onto **Bachelors of Business Administration: Management** program. As this program will challenge my skills and help me improve my technical knowledge in the field ahead. I can give a jump start to my career in the field as the university offers the students the opportunity to study from well versed faculty and also enhance their skills under their guidance.

I am confident enough to give the ropes of my career in the hands of the university, as on completing the degree from the reputable institution will give me an edge over others.

I see myself leading an organization with the utmost diligence in the near future as I believe in a steady and rapid progression, and on having this degree I can work with organization on various posts such as administrative managers, human resource manager, sales manager, financial manager and many more universities.

Thanks & Regards

Arvin Arya

The country has diverse environment ensures that there is acceptance among all communities and there is no room for any discrimination. These were the reasons behind my choice of the United States of America as study destination than other countries.

The day I made up my mind to study abroad, I started my hunt for best options available for me that fits my criteria. After searching on the internet I, shortlisted **Whittier College** as my future institution that I want to be part of and reflect its name onto my resume in future. The college grew from the academy and was chartered by the state of California in 1901 with a student body of 25. Whittier College is a cosmopolitan vanguard of 21st century society, recognized worldwide as a distinctive and relevant liberal arts college, offering additional graduate degrees in both education and law.

As long as I can remember I have had love affair with leading the team and managing everything according to the time, to give an edge to my technical skills I decided onto **Bachelors of Business Administration** program. As this program will challenge my skills and help me improve my technical knowledge in the field ahead. I can give a jump start to my career in the field as the university offers the students the opportunity to study from well versed faculty and also enhance their skills under their guidance. Program focuses on strengthening leadership, the creativity, communication, and critical thinking skills, which are imperative to success in any field. The aim of BBA is to train students and professionals in managing the general operations of any business and company. I can use this BBA degree to boost my credentials and either strives for promotion in my future job or follow a new career path.

I am confident enough to give the ropes of my career in the hands of the university, as on completing the degree from the reputable institution will give me an edge over others.

I see myself leading an organization with the utmost diligence in the near future as I believe in a steady and rapid progression, and on having this degree I can work with organization on various posts such as administrative managers, human resource manager, sales manager, financial manager and many more universities.
