

I Vikram Choudhary personally believe that one way to become successful in life is to set your own goals and I have that desire and willpower, to complete these settled goals. I want to tell about my educational attainment as well, I did my Matriculation in the year 2018 from Council for The Indian School Certificate Examinations, New Delhi and my Senior Secondary Education in the year 2020 from Punjab School Education Board, Punjab. My aim is to do a job in a reputed MNC company and to fetch that job I should have a different point in my CV. So, I decided to pursue a Bachelor's degree from Withworth University in United States of America.

The U.S. has one of the world's finest education systems, with excellent programs across all disciplines. The Academic study and experience from a U.S. university has a very positive reputation in the international job market. An education from this country will dramatically enhance my long-term career goals. The experience I will gain will build my critical thinking skills, develops self-confidence and cross cultural skills and all of these attributes are highly valued by employers worldwide. The US has always been a destination of choice for international students and the country has always been consistent with the quality of education it offers. The program structures in USA lays equal emphasis on building a strong theoretical base along with importance on practical, employment-related skills. Therefore, considering all these reasons I chose this country.

The University of New Haven, founded on the Yale campus in 1920, is a private, coeducational university that has been recognized by The Princeton Review and U.S. The University has experienced significant growth — both in enrollment and in the expansion of the University's West Haven campus. Full-time undergraduate enrollment has more than doubled, and first-year applications have quadrupled. Within the University of New Haven's colleges and schools, students immerse themselves in a transformative, career-focused education. The

experience of learning is both personal and pragmatic, guided by a distinguished faculty who care deeply about individual student success. As leaders in their fields, faculty members provide the inspiration and recognition needed for students to fulfil their potential and succeed at whatever they choose to do.

I selected to do Bachelors in Business Administration. A BBA program will provide me a measurable increase in salary as compared to other degrees. The curriculum is focused on group discussions, projects, presentations, and industry visits. This academic path will prepare me for a vibrant career and also help me grow on a professional and personal level. I will be prepared to become successful in a constantly changing environment, offering the tools you need to keep growing and keep developing as a successful professional in the global business world. As a result, I will be prepared in terms of personality, develop confidence, and I will also learn to communicate well. I will be developed as a polished individual.

I can easily work on job roles such as Project Manager, Operations Manager, Human Resource Manager, Team Leader etc. I can even work in the government sector on various job profiles. I know I have the determination, endurance and enthusiasm needed in this fascinating and rewarding career.
