## **LETTER OF RECOMMENDATION**

I have known Manish Sharma for the past years as a graduate student of Bachelors of commerce (Honours) at this college. He is basically a creative person, always trying to present his idea in a creative manner. He has a good logical reasoning ability and will always try to solve problems efficiently. In addition, he has demonstrated excellent powers of observation, and has the ability to communicate and suggest changes that were effective upon implementation.

From the beginning of the course, he began to re-define our expectation of a good student leader. He regularly discussed with his fellow students about the subjects. Along the course he had an excellent sense of perception about the basics of the Bachelors of commerce and improving the flow from one subject to the other and one concept to another concept – all to the great praise of both the staff and the fellow students in his class. He is both self-confident and independent, and has a great sense of humor that has helped him form strong relationships peers, and member of our staff.

I wish him all the best in his higher education and strongly recommend him for studies at your esteemed university.
