

I, Bhupinder Singh , want to describe some of my strengths that are organized, motivated and goal oriented. As far as my educational background is concerned, I did my **Matriculation** in the year **2013** from the Central **Board of Secondary Education** and my **Senior Secondary Education** in the year **2015** from the same board. Further I have completed my Bachelor of Arts. After completing my studies when I was searching for some good career opportunities, I decided to pursue a Masters degree from the United States of America. I decided that studying in the United **States of America** will be the next step in the path of career achievement. So, I started searching about the relevant courses according to my field of interest. After exploring a lot I selected to pursue a Masters **in Business Administration in General** from Lincoln University.

This course will offer me a broad base of knowledge in business and management. I will learn the basics across all specialties and develop skills that can be applied to many practice areas in almost any industry. This MBA program focuses on strengthening leadership, creativity, communication, and critical thinking skills, which are imperative to success in any field. The aim of an **MBA in General Management** is to train students and professionals in managing the general operations of any company. I can use this MBA degree to boost my credentials and either strive for promotion in my future job or follow a new career path. During this course I will study Principles of Management, Human Resources Management, Entrepreneurship, and Quantitative methods for Business.

I have selected this university because Lincoln University takes an international perspective to help prepare students for the global nature of modern business practice, offering the opportunity to specialize in areas of particular interest and acquire workplace experience. The award-winning teaching, world-leading research, and close links with the industry are some of the attractive reasons which have been highly considered in my terms. There are many

reasons why I chose the United **States of America** for my further education. In a globalized, well-connected world, employers increasingly value graduates with international experience and education. Studying abroad will help me to learn new languages, appreciate other cultures, overcome challenges of living in another country and gain a greater understanding of the world. The United States of America hosts the most number of international students in the world. Students studying in us are not limited to rigid coursework. From Admission cycles to the types of institutions to choose from, the US education system provides flexible options in everything.

Regards,
Bhupinder Singh
