

## STATEMENT OF PURPOSE:

I am **Khushbu** resident of **Haryana, India**. I completed my **Matriculation** from **Central Board of Secondary Education** in **2016**. Further I pursued my **Senior Secondary Education** from Board of Secondary Education Haryana in **2018**. I did my **Bachelors of Computer Applications** from **Chitkara University** during the session **2019 - 2022**. I hold an overall **115 Duolingo Band Score**.

The **U.S.** has one of the world's finest education systems with excellent programs across all disciplines. U.S universities give the personal attention to the students in order to succeed. Students are encouraged and expected to contribute to the discussions. Close relationship between students and faculty serves to motivate students and foster a personal approach to the curriculum. Studying in U.S, gives the opportunity to gain a mentor in the given career field, an invaluable resource. United States is the leader in the areas of research and management. While studying in U.S, I'll be exposed to advance techniques and research and will exhilarate me as I'll be fortunate to study with the scholars in my chosen field. I am sure that I will return home changed- more confident, more open and knowledgeable with much broader perspective. Academic study and experience from a U.S. university has a very positive reputation in the international job market. An education from this country will dramatically enhance my long-term career goals. Therefore, considering all these reasons I chose United States of America.

After pursuing my Bachelor degree, I started looking for universities for Master's degree. I find **University of New Haven** is one of the best universities for Masters. This university is a coeducational and independent institution for higher learning programs. The accreditation status of the university indicates that it meets the criteria for the assessment of institutional quality periodically applied through a peer reviews process. This university is the one which has the necessary resources to achieve its stated purposes through appropriate educational programs. University of New Haven develops the skills and experiences that I need to excel in my career.

As per my field of interest I decided to pursue **MS Computer Science**, from the university. This program will help me learn the developments in the field of computer Science. My core courses will be introduction to programming/C, C/C++ programming, data structures, Algorithm design & analysis, operating systems and many more. Projects will be given to us which help me grab a better understanding of the course. This degree in turn will help me establish myself in the world of technology and get many lucrative job opportunities.

Thanks & Regards

Khushbu
