LETTER OF RECOMMENDATION

DAMAN GUPTA was a bonafide student of our school. It has been great to watch him to grow and excel in the competitive environment at our school.

DAMAN GUPTA used to submit his home assignments on time and was attentive during lessons. He exhibited tremendous respect for his teachers, which speaks highly of his personality and character. Apart from his warmth, he also reflects intelligent, humor and knowledge.

He was an independent, strong-willed boy – outspoken on occasion, straightforward, socially gregarious, mature, perceptive, and devoted to tasks that matter to him – one who cuts his own path, regardless of the peer pressure of the day. He knows how to set goals and follow through. He is a friendly person who gets along well with his teachers and fellow students alike. While studying abroad is going to be an international experience par excellence, he will be returning this adequately through his exceptional candidacy, which is a fine blend of a liberal outlook and a great performance. With his maturity and confidence, he has a great future ahead of him and shall do extremely well in your institution. I am quite confident that he would do well in life and bring accolades to the institution he enrolls in.

Monika Gupta
