Letter of Recommendation

I take this opportunity to recommend **Sahajveer Singh** for a BCOM in our university. Over the time, I have seen him grow into a brilliant student. He comes across as a young and mature student who is willing to go out of his comfort zone to learn complex accounting problems. Not satisfied with classroom learning alone, he often comes to meet me in the staffroom during free periods to understand the nuances of the subject.

A passionate and natural number-cruncher, **Sahajveer Singh** does not hesitate to raise difficult questions in class.

Never the one to sit on his laurels, **Sahajveer Singh** has always striven to be the best and has been a diligent student in class. Possessing great levels of competitiveness and team-building skills, he has won debates, group discussions etc displaying his well-round personality.

I wish him luck in his future endeavors and look forward to answering any query that you may wish to ask me.

Mani Kapoor
