Ref. No. M.G.W./A.10866

Dated 10/10/2023

LETTER OF RECOMMENDATION

It gives a great amount of pleasure to write this recommendation for Vinkleveer Kaur D/o Amrit Singh, who I consider to be a really bright student in Science Department and see a lot of potential in her. I have closely observed her for the two academic years. During this time I had an opportunity to guide her through her academic and personal development.

As her faculty advisor and Lecturer for the subject of Physics I have observed that she actively participate in the lectures and am very responsive. She is an intelligent student and a fast learner; she also has a thirst for knowledge which has inspired her peers and junior.

Along with these quality's, she possesses excellent communication skills. She has self-confidence to work individually and skills to work in a team with her peers as well. She has great problem solving abilities and uses this to complete a given task at the stipulated period.

Having seen her progress and consistency in her work and with full confidence in her abilities I strongly recommend Vinkleveer Kaur for her studies in your reputed University.
