

STATEMENT OF PURPOSE

I would like to have this opportunity to introduce myself as **Sumanpreet Kaur** a healthcare enthusiastic person whose life is basically all about science and health. Ever since my young days, I have been very keen about medicines.

Gradually, this curiosity became my passion and I made myself determinant about making a career in Healthcare. This passion and love led me to pursue **Masters in Healthcare Management**. I would like to tell about my educational attainment as I did my Matriculation in the year 2007 from Punjab School Education Board and my Senior Secondary Education in the year 2009 from the same board. Further I did Bachelor of Science in Nursing from Baba Farid University of Health Sciences in the year 2022. My aim is to get employed in a reputed company and fetch a better job. So, I decided to pursue a Masters Degree from **Saint Leo University in United States of America**.

The U.S. has one of the world's finest education systems with excellent programs across all disciplines. U.S universities give the personal attention to the students in order to succeed. Students are encouraged and expected to contribute to the discussions. Close relationship between students and faculty serves to motivate students and foster a personal approach to the curriculum. Studying in U.S, gives the opportunity to gain a mentor in the given career field, an invaluable resource. United States is the leader in the areas of research and management. While studying in U.S, I'll be exposed to advance techniques and research and will exhilarate me as I'll be fortunate to study with the scholars in my chosen field. I am sure that I will return home changed- more confident, more open and knowledgeable with much broader perspective. Academic study and experience from a U.S. university has a very positive reputation in the international job market. An education from this country will dramatically enhance my long-term career goals. Therefore, considering all these reasons I chose **United States of America**.

I find **Saint Leo University** is one of the best universities for Master program for my respective field. Its world class education and placement rate attracted me once. Their excellent academic program and core values fascinated me as it prepares students for careers in high demand fields. Saint Leo University has a century-long tradition of welcoming students of all faiths. This university will provide me a professional education and I will be prepared for active participation, career advancement, and leadership in the global society.

I selected to do **Master in Healthcare Management**. A good master program will provide me a measurable increase in salary as compared to other degrees. I can gain skills and experiences with an understanding of healthcare delivery and services. Through practical yet rigorous coursework, I'll be well prepared to enter managerial positions at a variety of health care organizations such as hospitals, long-term care facilities and related services. I can learn to plan, direct and coordinate the business activities of health care providers. I will be able to examine structures of health care and insurance markets in the context of traditional micro economics analysis. In addition to the analytical tools and technologies necessary to solve complex management problems, university's Master program emphasizes leadership skills within the university core values. The curriculum is focused on group discussions, projects, presentations, and industry visits. This academic path will prepare me for a vibrant career and also help me grow on a professional and personal level. I will be prepared to become successful in a constantly changing environment.

I can easily work on job roles such as medical healthcare etc. in major regional medical centres, care communities, public health organisations etc. I know I have the determination, endurance and enthusiasm needed in this fascinating and rewarding career.

Regards

Sumanpreet Kaur
