STATEMENT OF PURPOSE

I would like to have this opportunity to introduce myself as **Yugal Singla** management enthusiastic person whose life is basically all about entrepreneurship. Ever since my young days, I have been very keen about learning new international managerial skills. I *actually believe in the positive light of different education and want to pursue my further studies from **United States of America**. Seeking this I further decide that I will first have my management roots strong and decided to do a **Post Graduate Diploma in Business Management** from **United States of America***. I would like to tell about my educational attainment as I did my Matriculation in the year 2007 from PSEB and my Senior Secondary Education in the year 2009 from the same board. After that I did Bachelor of Arts in the year 2012 from Punjabi University Patiala. Later I did MBA from Lovely Professional University in year 2015.

*When planning to study in abroad it is an important to introspect before taking a plunge. It is essential to make a good decision towards higher education in abroad. So, according to that I also researched a lot and found that according to the latest report by the QS university rankings, USA has emerged as a leading country known for its quality education. U.S. offers various options to choose from according to one's academic and cultural preferences. There is no doubt that studying from an advanced country like USA will offer me lucrative salary packages and perks here back in India. I will receive an acquisition of better skills and knowledge regarding latest trends of business world. If I will grew up in the US education system, the transition to studying my course would be easier as compared to other countries as the learning environment is key benefit, which will help me to make a real difference. Lastly, the country takes a pride in its technological advancement and it has made sure that all spectrums of the education sector are well equipped with the latest technology. This will make my life much simpler with easy access to data and other technology. After the decision of my destination I looked for the universities according to my program preference and selected **University of California, Riverside**.*

When selecting a university one of the most important thing is the faculty which should be focused and experienced and the teachers in this university helps to

build better tomorrows by supporting UCR's mission of research, teaching, and public service, they empower the students and encourage their success through our unwavering support, resources, and mentorship and outstanding benefits. The university rankings cannot be ignored and the university of California, riverside ranked No. 12 among all U.S. universities, according to Money Magazine's 2019 rankings, and among the top 1 percent of universities worldwide, according to the Center for World University rankings. Each of the last two years, U.S. News & World Report named UCR the top university in the nation for social mobility. The institution has a commitment to continually create something better. As a land-grant university with an enviable Southern California location, and distinguished faculty and academics who pursue path-breaking research, they are generating visionary and practical solutions to some of the world's most challenging issues. These point are enough to prove that why I selected UCR.

*A postgraduate diploma is a great choice for working professionals who want to widen their scope of business management knowledge and learn skills that can be applied in their field of work. Not only does a **PG diploma** add value to your CV, but it will also enable me to seek more challenging position in my field. When I will complete my course from a business school, I can emerge as an all-rounder with diverse business knowledge and skills essential to any organization's success. The best postgraduate courses give me a broader look at the business world which leads to new ways of working and innovative business ideas. Possessing management skills are considered as a valuable asset, making me stand out in a crowd of potential candidates. This course will prepare me to become more adaptable to change which is necessary in many fast-changing industries. While it is a huge commitment, a postgraduate diploma can be the catalyst that will help me to excel in my management career.*

My goal after this course will be to be employed as a Senior Professor or Head of Department and become successful in my field. This course and university will actually help to climb the ladder of my successful career.

Regards

Yugal Singla
