

PERSONAL STATEMENT:

I **KRITIKA** in this article have discussed about some of my academic goals. I believe that hard work and determination are the primary elements of success. I leaned to put extra effort in whatever I do, I believe that one should not give up under all circumstances. I did my Matriculation in the year 2020 from Central Board of Secondary Education and my Senior Secondary Education in the year 2022 from same Board. Now my next step is to go **United States of America** to pursue **Bachelors in Accounting** from **Gannon University**.

The USA is one of the best nations to consider when planning studying abroad. The education system in the United States is crafted and designed in a manner that it is the best education system in the world. There are a few justifications for why I just chose this nation for my further education however one of the significant reasons is the world chief status concerning innovation and study strategies. Contingent on the qualities, interests, and objectives, U.S. colleges purposely shift their homeroom designs and guidance strategies to make getting the hang of drawing in and, simultaneously, applicable to your own area. By giving understudies more admittance to electronic classes, using PC based tests, and permitting understudies to utilize various labs and assets, colleges can give the most recent and most current study hall experience that one can imagine. Through different studios, English-language practice courses, directions, and preparing, unfamiliar understudies are given a lot of help to prepare them for their classes.

Barely mystery top colleges in the U.S. have a solid presence among the best positioned schooling foundations on the planet. Somewhat this has to do with how very much subsidize and upheld American colleges are, however it additionally has to do with the high scholarly guidelines and thorough prerequisites that they ingrain in their understudies.

I searched about various universities but selected **Gannon University** as it is enriched by diverse population and offers an inviting community. This university provides professional education, grounded in the interaction of knowledge. It prepares students with practical and theoretical elements required in the job market today. Programs at Gannon are designed to be convenient, flexible and affordable. The academic programs at university have a truly global focus. Gannon University ensures a variety of perspectives make the classrooms informative and dynamic and I will be prepared for active participation and career advancement.

After completing the degree in Accounting, I can secure valuable career opportunities in positions including auditor, budget analyst, business consultant, financial consultant, forensic accountant and more. Mission of this program is to teach students core foundational concepts, preparing students to succeed in their professional careers. The program allows the students to choose a track in forensic accounting or fulfil traditional accounting requirements. This course will empower me to use relevant knowledge, solve problems, communicate and make decisions in an ethical and professional manner. I am confident that this field of study will fulfill all these things, because success in this field means succeeding in achieving my dreams.

Thanks & Regards

Kritika
