

**Introduction:**

"You don't have to be great to start, but you have to start to be great." I have started my journey since I have decided to be successful in my life. Just following this passion of mine I completed my basic education from India itself. I gave my secondary school certification examination in the year 2021 from Punjab school education board and gave my senior school certification examination in the year 2023 from the same board PBSE. When I was a child I promised to myself to be different from others so that parents would be proud of me and making parents proud is the most beautiful feeling in the world. Studying in USA would be a helping hand to make my career even better. I decided to proceed with my higher studies in USA because of the excellent study programs and the practical knowledge for the same I gave the English proficiency test and scored 6.0 overall bands.

**About this course:**

As I have mentioned in my introductory Para, I have done my senior secondary school certificate examination in the year 2023. I did that in commerce field because I have interest in this field. This is the very first reason behind choosing this course which is BACHELORS IN BUSINESS ADMINISTRATION management. As I have scored well in that standard and I am quite sure that I would be performing so well in the chosen course. I always wanted to start my own start up. Holding an international degree I would be able to get more opportunities in my home countries.

Thanks!
