+2 Non Med. to Computer Science.

12. HARSH TAAK 2022 GAP

After completing my studies in 2022, I took the opportunity to join my family's toy manufacturing business. Working closely with my father, I became involved in key tasks like client meetings, order management, and daily operations. Over time, I began to see how much more efficient these processes could be with the integration of technology. I started thinking about how software solutions could automate tasks like inventory management, order tracking, and handling customer data, which would save time and reduce the potential for errors. This sparked my interest in pursuing a degree in Computer Science. To further this goal, I have taken steps to study Computer Science in the USA and have already secured my I-20
