

STATEMENT OF PURPOSE:

“I never dreamed about success, I worked for it.”

Myself

I **Manpreet Kaur**, belong to Punjab, India. I did my matriculation in year 2015 from Punjab School Education Board and senior secondary school in year 2017 from the same board. Later I made up my mind to pursue my higher studies from a land full of opportunities, which is **United States of America**.

I chose **Gannon University** because I have searched a lot about this university. This university has been helping students to achieve their professional goals by providing graduate.

Gannon is a Catholic, Diocesan university dedicated to excellence in teaching, scholarship and service. Our faculty and staff prepare students to be global citizens through programs grounded in the liberal arts and sciences and professional specializations. Inspired by the Catholic Intellectual Tradition, we offer a comprehensive, values-centred learning experience that emphasizes faith, leadership, inclusiveness and social responsibility.

U.S. universities may differ from those in your home country in several ways. For one thing, small class sizes are very common. There may be as few as 20 to 30 students in a class, giving me the personal attention I need in order to succeed. While in class, students are encouraged and expected to contribute to the discussion. The United States is the leader in many areas of technology and research. While studying there, I will be exposed to advanced technology and research. I may be fortunate enough to meet, and even study, with the leading scholars in my chosen field. The country being a pioneer when it comes to the quality of education is one of the most prominent reasons to study in USA.

I am very much confident that this decision of mine will maintain the hierarchy of my success and I will be on the top most peaks in future.

Thanks & Regards

Manpreet Kaur
