

I am **Rhythm** resident of **Kurukshetra, Haryana, India**. I completed my **Matriculation** from **Central Board of Secondary Education** in **2016**. Further I pursued my **Senior Secondary Education** from the same board in **2018**. I did my graduation from **GMN College, Ambala Cantt.** where I pursued **Bachelors of Science** from **2018 - 2021**. I hold an overall **6.5 IELTS Band Score**.

The USA is one of the best nations to consider when planning studying abroad. The education system in the United States is crafted and designed in a manner that it is the best education system in the world. Though none of the education systems is perfect and the USA is no exception to this rule yet, it is one of the superior systems. With a variety of benefits to offer, the USA is my choice since it provides quality education, a unique curriculum, and a multicultural environment. The education system is flexible and provides abundant opportunities. The lively and vibrant campuses, cultural diversity and hospitality offered the international students are impeccable and add up to make the USA a dream study destination. USA has a good number of universities to choose from. After an in-depth research I have selected my dream college **UCR Extension, USA**.

UCR University Extension stands undeniably as one of the top-notch institutions in the USA since past 65 years now. The lively and vibrant campus, cultural diversity and hospitality offered the international students are impeccable and add up to make USA a dream study destination. It offers top-notch education by the top educationists. The education system is flexible and is known for providing abundant opportunities to the students. Therefore, a diploma earned from a higher education institute from USA will help me in applying the learned skills in my own country.

I have decided to pursue PGD in Biomedical Engineering. It provides a strong background and advanced learning in the main biomedical engineering areas including biomechanics, biomaterials, imaging, modelling and tissue engineering as well as an emphasis on manufacturing, with management training embedded throughout the course. This course will provide me a booming subject with various opportunities in management, laboratory work, education, research and consultancy.

Regards

The USA is one of the best nations to consider when planning studying abroad. The education system in the United States is crafted and designed in a manner that it is the best education system in the world. Though none of the education systems is perfect and the USA is no exception to this rule yet, it is one of the superior systems. With a variety of benefits to offer, the USA is my choice since it provides quality education, a unique curriculum, and a multicultural environment. The education system is flexible and provides abundant opportunities. The lively and vibrant campuses, cultural diversity and hospitality offered the international students are impeccable and add up to make the USA a dream study destination. USA has a good number of universities to choose from. After an in-depth research I have selected my dream college **Gannon University, USA**.

Gannon University is one of the most prestigious and old varsity of USA. The university is known for playing a vital role in the students' lives. The quality of education, citizenship, personal guidance, and overall development provided by the university makes it exceptional and worth. The university offers a diverse and multicultural environment that will help me in my overall growth. It will enhance my social skills and lead to my personal growth. Along with in classroom and subject centred learning, staying with people from different cultural backgrounds will help me gain knowledge and develop analytical skills too. The curriculum and traditions followed are comprehensive, value centered learning experience emphasizing on faith, leadership, inclusiveness and personal development. I have chosen to pursue **MBA Healthcare Administration**.

MBA focuses on the strategy, new management tools, techniques and knowledge in managing the workforce of the organization. It enhances my communication skills and leadership skills. After completing MBA from Saint Leo University it will open a new career path for me in technology, finance, management, marketing, or manufacturing, with greater responsibility, career advancement, and increased financial rewards. I opted for this course

MBA in Healthcare Management that is a two-year post-graduate management degree programme that trains students to manage several operations in hospitals, pharmaceutical companies, as well as other healthcare systems. MBA in Healthcare Management focuses on an integrated strategy that covers all aspects of the healthcare industry. Healthcare management is the area that focuses on the administration of clinics and hospitals. This program which will build my skills and develop new ones, such as the ability to manage diverse teams around, develop an understanding of integrated management required to lead teams and attain the goals of the organization. I will get more work opportunities as: Marketing Manager, Sales Manager, Human Resource Manager, Executive Manager, Administrative Manager, and Management Analyst etc.
