LETTER OF RECOMMENDATION

I am delighted to recommend Sushant for admission to your prestigious university. Sushant is currently pursuing a Bachelor's degree in Computer Science and Engineering with a specialization in Information Security at Chandigarh University, Mohali. Over the course of our time together, I have witnessed his remarkable growth into a confident and accomplished individual. I have had the privilege of instructing him in subject Network Operating System. Throughout our interactions, Sushant has consistently demonstrated punctuality and a strong commitment to completing his assessments promptly. His exceptional academic performance is a testament to his diligent work ethic.

Sushant has actively participated in numerous college events and projects, displaying his enthusiasm and dedication. Despite his busy schedule, he has managed to attend workshops and obtain certifications in various courses without compromising his academic performance, underscoring his adeptness in time management. Furthermore, he is responsible, and resolute in his aspirations to excel as a professional in the future. His insatiable curiosity and willingness to take risks assure me that he will continue to thrive.

I enthusiastically endorse Sushant for admission to your esteemed institution based on these qualities. I am confident that he will contribute positively to your university community. Should you have any further inquiries, please do not hesitate to contact me.

Warm regards,

Dr. Nitin Jain

Professor

LETTER OF RECOMMENDATION

I take immense pleasure in endorsing Mr. Sushant for his further academic pursuits at your esteemed institution. I've had the privilege of knowing him for the past two years, during which he has consistently shown dedication to his studies. I had the pleasure of teaching him Theory of Computation and Database Management Systems, and also supervised his senior project. Through this experience, I got to witness firsthand his enthusiasm for learning.

Sushant's participation in a three-person team for his final year group project showcased not only his exceptional interpersonal skills but also his ability to work autonomously. While he took charge of the project's backend development independently, he seamlessly collaborated with his teammates on the frontend and database aspects. His adeptness in leadership was evident throughout the project, earning him high esteem from both faculty and peers.

His commitment and expertise set him apart, and I am confident that he will make significant contributions to both academic and student life at your university. Should you require any further information, please don't hesitate to reach out to me.

Warm regards,

Dr. Krishnendu Rarhi(Professor)

Program Leader of Information Security & Blockchain

Chandigarh University, Gharuan
