

My name is **Gobind Singh**. I am from Punjab, India. I have applied for a BBA program in Lincoln University in the United States of America. Before this I have completed my matriculation in 2021 and senior secondary in 2023 from Punjab School Education Board. When I was completing my senior secondary I always desired to go abroad for my higher studies.

After learning about the education system of the **USA** from different search engines, I decided that I will pursue my higher studies from the USA. USA's universities are very well known for their vast programs for students and it is the first choice of international students. I think studying in the USA will definitely give a boost to my career.

I am determined to study in **Lincoln University** because I find Lincoln University is best for my future studies due to its good rank and well-read faculty members. I have searched a lot and from many universities I have chosen Lincoln University because it is a highly ranked university in the USA and studying from such a university is very beneficial for international students.

I have opted for a **Bachelor of Business Administration** course because of increasing scope in the business world and to secure a good job to support my family financially in future. I am also impressed by the culture of the USA and want to experience it personally. The other reason to go to the USA for studies is to become independent. Living away from my family will make me independent and responsible. Kindly consider my application. I shall be obliged to you.

Thank you

G
