ESSAY

Share an essay on any topic of your choice. It can be one you've already written, one that responds to a different prompt, or one of your own design.

"If you don't sacrifice for what you want, what you want becomes sacrifice."

I would like this opportunity to describe myself; Kiran Atwal a resident of Punjab, India. As far as academics are concerned I did matriculation in year 2019 and senior secondary in year 2021. I have always been an obedient student throughout my schooling, in order to upgrade my academics, I decided to pursue my education from United States of America, which will give me a global exposure.

There are several reasons that why I only selected this country for my further studies but one of the major reasons is the world leader status in terms of technology and study techniques. Over the past few years, the U.S. has dominated the globe in being the most popular university destination for students from all over the world. Depending upon the strengths, interests, and goals, U.S. universities deliberately shift their classroom structures and instruction methods to make learning engaging and, at the same time, relevant to your own domain. By giving students more access to web-based classes, utilizing computer-based tests, and allowing students to use different labs and resources, universities are able to give the latest and most modern classroom experience that I imagine. Through various workshops, English-language practice courses, orientations, and trainings, foreign students are given plenty of help to get them ready for their classes. It's hardly a secret that top universities in the U.S. continue to maintain a strong presence among the best ranked education institutions in the world. Partially this has to do with how well-funded and supported American universities are, but it also has to do with the high academic standards and rigorous requirements that they instill in their students.

Fredonia offers you a complete college experience -- a "destination university" in a creative environment that is diverse, welcoming, and safe. Fredonia values and encourages a broad range of experiences, talents, and knowledge, from people of all identities, experiences, and backgrounds, in support of inclusive excellence. Living on the Fredonia campus is a major part of your overall college experience. It's the best way to meet other students with diverse backgrounds and interests.

I am very much confident that this decision of mine will help me become a strong individual in terms of academics and career.
