Upon completing my Bachelor's in computer science in 2023, I utilized my computing skills by analyzing candidate data and facilitating connections between employers and job seekers. This hands-on experience in data analysis and recruitment helped me understand the practical application of IT principles and the importance of innovative solutions. My entrepreneurial goal of developing advanced recruitment applications led me to seek further education in IT which will provide me with the advanced technical knowledge, research capabilities, and management practices necessary to launch and manage cutting-edge applications effectively. accordingly, i have applied for the present 2025 intake.
