After bachelor's degree in CS, I entered the in-demand field of e-commerce as a freelancer. During the time, I managed various online stores, honing my skills in areas such as website development, digital marketing etc. This has given me a unique perspective on the intersection of technology & business. The importance of data analysis ~~is~~ is crystal clear in this field and I believe pursuing master's in IT/CS would broaden my knowledge in emerging technologies, cybersecurity and data analytics. The program can be best learnt in USA universities and with a motive to innovate within the sector, I have proceeded with the plan.
