I choose USA as my study destination because of impressive international reputation of American education system which is carefully regulated by the U.S government in order to maintain the high standards of education associated with the country. U.S standard of living is amongst the highest in the world. Living expenses and tuition costs are considerably lower in U.S than United Kingdom. Universities in U.S offer a wide variety of courses and degrees. U.S is at the forefront of new technology and innovations. U.S has a modern, highly educated culture with a thirst for knowledge and research. U.S has contributed to science and research through fascinating discoveries, high quality educational opportunities, and international collaboration. U.S is located near Asia, one of the fastest developing regions, so has immediate ties to most powerful economic hubs in the world. U.S Universities are offering range of scholarships available which can help to lower the cost of studying in U.S. I chose U.S over other countries as U.S is having the best quality in business schools. A surprising benefit to international students is the amount of diversity in US Business programs. Therefore, considering all these reasons I chose the country.

The University of Lincoln is rated among the top 30 universities in the US for student satisfaction in the Guardian University Guide 2022 and we are ranked in the top 20 overall in the WhatUni Student Choice Awards 2022. Lincoln University is highly regarded for its personalized approach to education, which emphasizes meaningful and practical programs in a limited number of areas (in contrast to universities that offer a broad range of programs). It also ranked 15 in the best colleges rankings based on its merits. Lincoln University has bachelor's degrees in business administration and master's degrees in international business, and minors in humanities and computer science. The university has a multidisciplinary research center with opportunities for all students, and it provides a number of scholarships to assist students with their financial obligations. Lincoln ranked fourth in the San Francisco Bay Area for the highest MBA enrollment of 324 for full-time courses in the fall 2019 intake. Overall this institute is offering quality education to their student and 24/7 assistance to them make their study smoother and easy.

This course is highly in demand on national and international front and this course is relevant to my previous study. Master of business administration is a 2 years course from Lincoln University, by learning high techniques and management strategies from world class highly experienced faculties. After completion I will be able to work for top ranked companies anywhere around the world. I can work in the areas such as Finance, Consultancy, Banking, Insurance, Information Technology, Sales etc employed in the post of Sales executive, Research Assistant, Human Resource Executive, Financial Executive, Marketing Executive etc. The average salary of a MBA Graduate is around INR 8.45 LPA Career prospects after this course is huge I will eligible for like a:

- Data Scientist.
- Administrative Services.
- Digital Marketing.
- Product Management.
- Block chain Expert.

After completion of my course I want to come back to my home country, India has a huge demand for International degree holder. I will pursue my dream job and apply whatever I will learn in U.S. I need to come back as I have to take care of my parents and my father's business. I want to add to the development of my nation.

Sincerely,

Amandeep Singh
