[Red handwritten signature]
27/10/24

After completing my 12th grade in commerce, I took the opportunity to explore my interests and gain practical experience in the realms of technology and business. During this formative period, I engaged in self-directed learning by enrolling in various online courses focused on programming and data management, which equipped me with essential foundational knowledge in information technology. This experience not only enhanced my technical skills but also deepened my passion for the convergence of business and technology. I recognized that pursuing a Bachelor's degree in Management Information Technology would enable me to further hone my abilities and actively contribute to innovative solutions within the business landscape. I am now enthusiastic about embarking on this academic journey and applying my acquired knowledge in a structured educational setting.
