(2024)

(Computer)

During my academic years, I was always captivated by the animated shows I watched on TV. I would often wonder how these characters were brought to life. After completing my 12th grade in the non-medical stream in 2024, I decided to dive into my passion for computer graphics and animation. I started teaching myself the basics by exploring tools like Blender and Maya, experimenting with creating animated scenes, designing 3D models, and adding visual effects. Through this practical exposure, I not only developed my technical skills but also discovered how much I enjoyed the creative process of bringing ideas to life. This experience inspired me to apply for a Bachelor's degree in Computer Science, where I aim to build on my self-taught knowledge and work toward turning my passion for animation into a professional career.
