Dear Puneet,

Congratulations! I am pleased to offer you admission to attend the University of Memphis as a First Time Freshman student for the Spring 2025 term in the Biology program. Based on information provided in your application, your attendance will be on the Memphis campus. On behalf of our talented faculty and staff, and the nearly 22,000 fellow students, welcome to the University of Memphis.

You will begin to receive more information about the University and the steps necessary to complete your pathway to enrollment. Being admitted is the first important step, but there are other significant steps you will need to complete that are time-sensitive and will impact your academic success.

We are pleased that you have chosen the University of Memphis to continue your education. Again, congratulations on your offer of admission, and we look forward to welcoming you to the city of Memphis and the UofM campus.

Sincerely,

Eric Stokes, Ph.D.  
Assistant Vice Provost and Director  
Office of Undergraduate Admissions and Orientation
