LETTER OF RECOMMENDATION

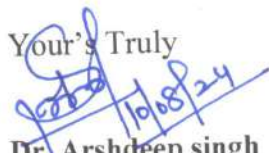

I have the honor to write this recommendation letter for, Simranjeet Singh was a student of Desh Bhagat University located in Punjab, India. He pursued a Bachelor of Technology Degree in Electrical Engineering, under University roll No.14320414001 from 2014 to 2018. I am pleased to recommend for admission in your prestigious university Higher Education Program. I have taught him Engineering Drawing in 2nd semester during his Bachelor's degree.

I am recommending him in capacity of Associate Professor in department of Mechanical engineering at Desh Bhagat University. He is keenly interested in course work in seminar. I have found him as hard working, sincere student. He shows his capability in the workshop held and has good leadership quality as well to read group efficiently.

He has always been a hard worker and I am impressed with his quick perception and reproduction of concepts. His application is praiseworthy. His maturity, competence and ability to work diligently indicate that he can perform well even in a highly competitive atmosphere.

Also, he is capable of articulating his thoughts with lucidity both orally and in writing. He is proficient in written and spoken English. I strongly recommend Simranjeet Singh for Higher Education Program at your esteemed university with absolute confidence. I am assured he will continue to do so as he grows in your program and beyond.

Your's Truly

LETTER OF RECOMMENDATION

As **Head of Department** of Computer Science and Engineering, Desh Bhagat University, I am delighted to recommend to you Mr. Simranjeet Singh S/o Randhir Singh, B. Tech Electrical Engineering, University Roll No 14320414001 for Master's Program in your esteemed institution/University and to write this letter on his behalf. I taught him the course of Fundamentals of Computer Programming and IT, in 1st year. He has been a bright student during University time which was also well supported by his academic scores.

In all areas, Simranjeet Singh has gone beyond our expectations and it would not be incorrect to say that he has outshined peers. Apart from his dedicated academic curriculum, he did voluntary work and organized flash classes to help juniors clarify their basic concepts of Computer Programming and IT. He actively took part in all conferences, workshops and seminars organized by the department. He was an agile member of the team and inspired his fellow peers and faculty members to actively engage in the camp, which shows his resolute allegiance towards the gratification of the society.

His English finesse and superlative communication skills deserve a noteworthy mention here which is well supported by his active engagement in departmental activities. Simranjeet Singh seemed to get on well with classmates and professors at all times and I imagine he will do the same when he is in your institution.

I very much agree with his decision to pursue Masters Studies and thereby recommend Mr. Simranjeet Singh in most convincing terms to be considered for admission to the Master's program. I wish him good luck and all the success in his future endeavors. In case of any queries, you are free to contact me.

LETTER OF RECOMMENDATION

It gives me immense pleasure to recommend Mr. Simranjeet Singh S/o Randhir Singh, B. Tech Electrical Engineering, and University Roll No 14320414001 for higher studies at your University/Institute. I have known him for last few years and have had the opportunity to observe him from close quarters. I taught him the course of Digital Electronics Circuits in 2nd year of B. Tech, under the department of Electrical Engineering. Simranjeet Singh is hard working and committed student. He has shown a consistent performance throughout his stay at our University. He has always been inclined towards academic excellence, which is also projected through his impressive academic scores.

He is well equipped with analytical and logical abilities. In fact his approach to a problem has always been very practical. Here I would like to make a special mention for his ability in applying his theoretical knowledge to find practical solution, which I specially observed at training workshops, digital technology based project work etc. It proves that he is technically sound candidate. His keen interest in his subjects was evident by his regular presence at class, workshops, laboratory performances etc. He was most sought after student at tutorial as his understanding of the subject was immaculate. This was manifested in the kind of questions he would ask in the class having understood the concept once, he would then explain it in the simplest term and language to his fellow students. His explanation would be very clear and lucid. This was also amply displayed during his preparatory institute examination and laboratory practical. He used to communicate with clarity and effect while explaining any question asked in the class. Keeping in mind all the above qualities, his profound interest in the subject and his acute sense of perception I have no hesitation in endorsing his candidature for any study program at your esteemed Institute/University.

I wish him success in all his future endeavours.

Please feel free revert for any other information.
