After completing my bachelor's degree in Computer Science, Statistics, and Mathematics in 2023, I gained valuable experience working as a freelancer at a local analytics firm. During this time, I was involved in real-world projects that utilized my academic background, assisting in data collection, cleaning, and analysis. My contributions to reports helped clients make informed business decisions. This hands-on experience solidified my understanding of data analytics tools and techniques and allowed me to apply my theoretical knowledge in practical settings. Staying updated with industry trends deepened my technical expertise and reinforced my passion for data analytics. ^{I.T. Science} Motivated by this focused learning and practical application, I am now eager to pursue a Master's degree in Information Science. This advanced study will enable me to further enhance my skills in data management and analytics, equipping me to make an even greater impact in the field.
