LETTER OF RECOMMENDATION **TO WHOM IT MAY CONCERN**

As a Director Principal of National Dental College and Hospital & Head of the Department of Orthodontics and Dentofacial Orthopaedics, I am delighted to evaluate to you a student of this institute, Ms. Pulkit daughter of Atal Sharma.

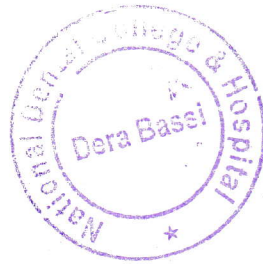

After going through her records and log books maintained in the college, she comes across as a very sincere student who was good in her studies as well as in dealing with patients in clinics. She worked in this institute with dedication and honestly. She spared no effort to learn from her seniors and teachers which is reflected by the good grades in her log books.

I understand and support her desire for seeking higher education. She seems to be a bright, dedicated and responsible person. She can adeptly meet all the challenges and do her work sincerely. I strongly recommend her for admission to your prestigious University. I wish her all the good luck in her future endeavors.

Yours Sincerely,

07/10/22

Dr. Vinay S Dua
Director/Principal
Professor and Head of Department

LETTER OF RECOMMENDATION TO WHOM IT MAY CONCERN

I take immense pleasure in recommending one of my students, Pulkit, whom I know for two years during her posting at my department (Department of Periodontology and Implantology). I taught her the subject of 'Periodontology'. This interaction provides me with sufficient information to gauge and assess the intellectual capability and analytical skills that she developed during the course. She is technically strong and excellent in communication and interpersonal skills.

Pulkit joined for Bachelor of Dental Surgery in 2017-18 and graduated in 2022 with very good percentile. She is hard working and technically savvy who is keen to learn and implement new ideas in her professional life. I was really impressed by her sound knowledge in various areas of Dentistry. She has proved herself to be a talented and brilliant student in all fields with excellent ability for logical and intuitive thinking.

During her under-graduate program, she successfully participated in many academic events. Apart from being clinically sound, she has shown a penchant for grasping and visualizing practical difficulties and this makes her a potential research student.

She is confident, down to earth, pleasant and well-mannered and focused. She is articulate and can express herself very well both in formal teaching contexts and in informal discussions. Pulkit is flexible and cooperative with her classmates and holds a high morale. Considering her motivation, perseverance and intelligence, I strongly believe that she will scale the highest peaks in her fields of interest. In view of all the above facts, I strongly recommend her, without any hesitation, for admission to the graduate program at your institution.

Gurpreet Kaur,

Dr. Gurpreet Kaur, BDS, MDS.

Professor and Head of the Department,
Department of Periodontology

LETTER OF RECOMMENDATION **TO WHOM IT MAY CONCERN**

Date: 7-10-2022

It gives me immense pleasure to recommend Ms. Pulkit daughter of Atal Sharma for study abroad. She was a bonafied student of BDS (Bachelor of Dental Surgery) Course, in this college during the session 2017-2018 and had passed with good numbers.

It's my pleasure to recommend Pulkit, whom I taught Oral Medicine & Radiology for 3 years. She demonstrated tremendous effort and growth throughout the course and brought a great energy to class. She has the combination of positive attitude and the belief that she can always improve, that's rare in college students, but essential to the learning process. I am confident that she will continue to display the same commitment and diligence in everything she does.

She is a hard worker and has always been eager to gain knowledge about Oral diseases and its prevention & treatment. She is motivated and focused to spread awareness among people about ill effects of having tobacco and its effects on oral health and related increased risks of developing oral cancers. She has also gained good knowledge of Radiographs. She is good at diagnosing the diseases and interpreting diseases from radiographs and also good at explaining patients about importance of maintaining good oral hygiene. She possessed good interpersonal relationships with her batch-mates and teachers.

She is very focused on developing a career in healthcare and spreading awareness about it. In her Internship, she has organized and managed many camps to aware people about oral hygiene and health care with her colleagues. She has participated in extracurricular activities such as sports, competitions, street play, skits, and attended various conferences. Her skills to participate in multiple activities and excel in doing so shows great sense of commitment and joy for working in a team.

I have strong confidence that Pulkit will be one of the most promising students and I am sure that she will succeed in the future. I would like to recommend her and it would be a great pleasure for me to see her continuing her post graduate course at your University. I will be glad to give any further information regarding this.

Sincerely,

Dr. Rajan Rajput,
