+ 2 A-Levels → Bachel in Computer  
(2024) Science  
(Jashan)

During my senior secondary education in 2024, I developed a growing interest in technology, especially in Cybersecurity. I realized how important it is to protect digital systems, networks, and sensitive data from the increasing number of cyber threats. This made me want to learn how computer systems and networks can be secured against attacks like hacking, data theft, and security breaches. To better understand this field, I started self-studying key topics in cybersecurity, such as ethical hacking, network security, and data protection. I used online resources and tutorials to deepen my knowledge. I also kept up with current cybersecurity trends and the latest cyber-attacks, which made me aware of the growing demand for skilled professionals in this area. This self-study not only gave me a solid understanding of cybersecurity but also confirmed my decision to pursue a Bachelor's degree in Computer Science. in USA.
