

I Yogesh belong to Haryana, India. I have completed my matriculation in the year 2016 from Board of school Education Haryana and I Completed my senior secondary from the same Board in the year of 2018 . I always wanted to do my higher studies from Abroad but due to some circumstances it got delayed and now finally I am ready to pursue my further higher studies from USA .As I always inclined to study my bachelors from one of the most top nation USA.

I choose USA as it's a world's most popular destination for the International students and biggest chain of universities and colleges. We all aware about the USA quality of Education and unique Curriculum and the abundant career opportunities for the International students. USA universities are Top Ranked Universities which offers wide range of Programs and field of study and there are other benefits like interact with People from diverse culture. Studying in America will help me learn a new language, appreciate other cultures, overcome the challenges of living in another country, and understand the world better. It is a leader in research and technology and has some of the best universities in the world and there is opportunity of getting Scholarships for the students.

I have chosen Lincoln University after doing a great deal of study. One of the best universities in the United States, this institution welcomes international students. Universities provide a sense of societal responsibility that compels us all to pay attention, learn new skills, and change the way we do things and endeavor by encouraging a sense of peace, unity, and solidarity based on mutual respect and trust. The university is well known for having a significant impact on students' lives. Its overall development and personal counseling are what set it apart as a premier university. Outside of the classroom and private schooling, being among individuals from various cultures will also aid in my information acquisition and skill development

I decided on a Bachelor of Science in Business Administration because it gives me a grasp of the managerial duties involved in business. The degree is professional. One of the most popular courses that students enroll in after school is the BBA. Anyone looking to advance their profession, start their own company, or get training in this area undoubtedly made the decision. Students pursuing a BBA degree have several alternatives for careers in marketing, human resources, management, and other fields. Since every business organization is linked to every kind of occupation, anyone can grow in their career by having a fundamental understanding of business.

After completing the course, I plan to return home because I may be able to secure prestigious positions in India's public or private sectors, either starting my own business or working for reputable organizations in fields like finance, operations, human resources, etc. I appreciate your efforts and hope you will move forward with my application.

Regards  
Yogesh
