BSc (2021) → Master's in  
cyber security  
(Amanpreet)  
New

My interest in cybersecurity began during my final year of BSc in 2021, when I started exploring how digital payment systems work and how easily they can be exploited if not properly secured. This curiosity turned into a serious concern when a close friend became a victim of online payment fraud, losing sensitive personal and financial information. I helped him investigate the breach and realized how vulnerable small businesses and individuals are to such attacks. Inspired by this incident, I began assisting local startups in identifying basic security flaws in their payment systems and advising them on safer practices. To make a real impact, I decided to pursue a Master's in Cybersecurity and develop advanced skills to protect digital transactions and personal data in today's interconnected world.
