

Statement of Purpose

I am **Sahibjot Singh**, a resident of **Patiala, Punjab, India**. I completed my **Matriculation** from the **Central Board of School Education** in **2018**. Further, I completed my **Senior Secondary Education** from the **Council for Indian School Certificate Examinations** in **2021**. I have always been keen on moving abroad for higher studies. It was always my dream to study in the USA since it offers the best education system in the world.

The USA is one of the best nations to consider when planning studying abroad. The education system in the United States is crafted and designed in a manner that it is the best education system in the world. There are a few justifications for why I just chose this nation for my further education however one of the significant reasons is the world chief status concerning innovation and study strategies. Contingent on the qualities, interests, and objectives, U.S. colleges purposely shift their homeroom designs and guidance strategies to make getting the hang of drawing in and, simultaneously, applicable to your own area. By giving understudies more admittance to electronic classes, using PC based tests, and permitting understudies to utilize various labs and assets, colleges can give the most recent and most current study hall experience that one can imagine. USA has an unparalleled education curriculum and one of the top-technology that makes it stand as a tough competition in the education sector.

With a plethora of options available to choose from I decide to apply at Felician University. Founded in 1942 by the Felician Sisters, Felician University is one of the few Franciscan universities in the university, and the only one in New Jersey. The university offers a proven, purposeful education, which, through professionally focused courses of study, equips students with the critical skills, knowledge, and experience essential for meaningful careers and productive life. The culture of the varsity is a comprehensive, value centred learning experience emphasizing on faith, leadership, inclusiveness and personal development.

As per my field of interest I chose to pursue bachelors of Business Administration. With the advent of advancement the need for global business environment is changing rapidly. The course will equip me with the skills and knowledge which will help me grab job in any business sector. The curriculum is as such that after the completion of the course I would be able to solve issues faced by an organisation strategically and creatively. I will be studying courses like marketing, micro & macro- economics, business ethics and law, organisational behaviour, international business and more.

This degree will prepare me for a rewarding career in any sector of the economy. I will be ready for professional employment in any sector I want. This degree will help me improve and develop analytical, problem-solving, and communication skills through a variety of hands-on learning experiences. A degree from your institution will make me stand at a higher, better and dignified level than others.

Thanks & Regards

Sahibjot Singh
