PERSONAL CIRCUMSTANCES

I would like to introduce myself as Sapna Devi. I belong to Kaithal, Haryana. Talking about my academics, I completed my secondary education in 2021 with CBSE Board from Guru Nanak Academy Kharak, Kaithal and later completed my high school in 2023 from Yuvraj Public School VPO Batta Kaithal, Haryana from CBSE Board. After completing my high school in 2023 I gave my English Proficiency Test, i.e. IELTS with a score of 6.5 bands. After that I did my online research about many universities and found State University at Buffalo located at New York to be the best.

After thorough and careful research I have selected State University at Buffalo for my further studies. Physics has a crucial role in all the significant inventions of the human world. Studying the science and structure of matter helps reveal the secrets of the universe. A physicist has multiple job options and a lot of growth opportunities. Also, for some, physics is not just a sector to find a job but a passion. As physics explains the natural phenomena all around us. Talking about university campus, university houses the largest state-operated medical school, dental school, education school, business school, engineering school, and pharmacy school. Also educating students with more than 150 years and also offers programs

I am sure that BS Physics course for fall 2025 will match my academics as well. I hope to get admitted under your esteemed university for further studies.

Thanks & Regards,

Sapna Devi

ESSAY

Some students have a background, identity, interest, or talent that is so meaningful they believe their application would be incomplete without it. If this sounds like you, then please share your story.
