UATY-2023 | +2 Non - Medical
to
Physics.

Just after completing my senior secondary in 2023, When Chandrayaan-3 made headlines, it did more than just inspire a nation—it ignited something in me. I became obsessed with the idea of space and its infinite possibilities. That fascination pushed me to use my gap period wisely and I studied astrophysics, joined astronomy workshops, and participated in science fairs to see how science works in real life. But the deeper I got, the more I realized, I was just at the beginning of my exploration.. To truly understand and contribute to space exploration, I needed strong fundamentals in physics. That realization shaped my path and leading me to pursue a Bachelor's in Physics in the USA
