

## Statement of Purpose

I Rajan Kumar ,belong to Haryana, India. I have done my Matriculation year 2016 from Board of School Education Haryana and my Senior Secondary Education in 2018 from the same Board. After that, I did my Bachelor of Science in Computer Application in the year 2021 from GOVT. PG College Panchkula which is Affiliated to Kurukshetra University, Kurukshetra . As we all know the competition in India is very fierce. I realized that when it comes to a good job, there must be something attractive in my needs to find it, to overcome this challenge. That's why I decided to get an international certificate from the United States.

The U.S. higher education system has lots to offer every student. The structure of the program emphasizes both the establishment of a theoretical foundation and practical skills. The teaching is interactive and very business-like, emphasizing knowledge and skills. Also, health makes people good. In the social and social world , employers increase the value of graduates with international knowledge and education. Studying in America will help me learn a new language, appreciate other cultures, overcome the challenges of living in another country, and understand the world better. America has one of the best education systems in the world, with the best programs in all subjects.

After deciding on my education, I started looking for a university that matched my interests and chose Alliant International University. This University is one of the' top universities and has a tradition of welcoming students of all faiths. By fostering a spirit of unity, solidarity and solidarity based on trust and respect, they create a social responsibility that compels us all to listen, learn, change business and work. They help us learn business, finance, strategic management, ethics, law and human resources for our strengths in organizations of all sizes, large or small, public or private, nonprofit or not. With a safe campus and a wonderful, inclusive environment, Alliant International University offers many resources to help you succeed.

I chose the MS In information system and Technology . Earning a master's degree in MS is a great way to pursue higher career opportunities. This will improve self esteem and new skills such as independence, self motivation, time management and more. Almost every industry relies on computers and technology, making computer science a great job. There is a growing demand for people with a deep understanding of technology, management and software. Computer Engineer, Information Security Manager, Web Designer, Web Developer, etc. for women in . There are many popular jobs such as Computer Engineer, Information Security Manager, Web Designers, Web Developers etc.

After graduation, I will return to my country because I will study networking, software development and testing, web development, cryptography, etc. for my master's degree in Computer Science. There are many jobs in the fields. I believe that studying at Arkansas State University will give me a better understanding of the fundamentals of business and help me acquire the skills needed to achieve my goals.

Regards

Rajan Kumar
